## DETAILED ACTION

\*\*\* This office action is in response to Applicant's Amendment and RCE filed on Dec. 19, 2003. Claims 8-27 are currently pending. Claims 1-7 were canceled.

### Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

### IN THE SPECIFICATION

Page 1, after line 3, (in the section of "Cross-Reference To Related Applications"), after "June 23, 2000" insert --, U.S. Patent No. 6,369,419 --.

### *Allowable Subject Matter*

2. Claims 8-27 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter:

Applicant's amendment and convincing remarks of record have overcome the rejections of record. The references of record, alone or in combination, do not fairly anticipatively disclose each and every aspect of the claimed method, or fairly make a prima facie obvious case of the claimed method, in combination with other processing claimed limitations, the inclusion of forming a pad oxide along a surface of a substrate adjacent the trench filled with a trench conductor; forming a collar along an upper portion of the trench such that the collar insulates the substrate from the trench conductor; recessing the collar and the pad oxide; depositing a lip strap over the trench conductor and in recesses produced by recessing, wherein the recessing allows the collar to remain in contact with the adjacent wall of the trench such that the collar separates the lip strap from the adjacent wall of the trench.
